

Candidate Information Request

Completion of this part of the nomination form is not mandatory. By supplying the information on this form you agree that it may be circulated to shareholders in St Georges Field Limited together with the details of the nomination above in accordance with the Articles of the Company.

- 1. Please supply a CV in not more than 150 words with particular regard to relevant experience or other relevant information specific to the nomination.**

I am 38 years old, married and the father of two young children. I have lived at SGF since 2012; I own two apartments on the estate and am presently completing the purchase of a third.

I studied statistics at LSE before doing a Masters at Harvard. I started my career working for a bank in New York, and then returned to London to take up a position at the hedge fund, Capula Investment Management. I worked for Capula as a Risk and Portfolio Manager for fourteen years. I left Capula in 2022 to manage my own portfolio. This background has given me experience in finance and data analysis which would be an asset as a Board member.

I was a Director of a daycare centre for people with early dementia, a cause that I care deeply about, and which also gave me excellent experience as a hands-on director.

- 2. Please indicate in not more than 100 words what specific policies you might advocate as regards the direction of St George's Fields Limited if you were elected to the Board.**

Security and the high maintenance of the estate is of paramount importance to me, this ensures that our properties maintain their value.

As director I would support any policies that achieved this, such as additional CCTV and secure lockers for deliveries.

To mitigate the impact of high interest rates and inflation I would support shareholders being allowed to rent their parking on a long-term basis. However, people wishing to do so, should have to provide full details to the office and pay an annual registration fee, thereby creating additional income for both the estate and shareholders while increasing security.
